ISOLXTREM® SYSTEM

COLBAIXTHERM

Cement-based mortar for pasting polystyrene plates. (EPS).

USES

Cement, stone, fibre cement, brick, facing bricks, concrete panels, cement blocks, polystyrene and rockwool insulation panels.

Surfaces must be sound, dry, cohesive, absorbent, well adhered, clean and free of dust.

FEATURES

- Easy to apply.
- Thin and thick layer applicable.
- Strong adhesion.
- Highly resistant finish.
- Low retraction.
- Storage: 12 months inside its original packing and kept free from damp and humidity.
-

IDEAL FOR

- Pasting polystyrene (EPPS) and rockwool insulation panels.

25Kg

Pallet of 48 sacks
of 25 Kg.

Water for mixing

0,24 l per kg of plaster.
Use water for cleaning tools.

Performance

2 - 3 Kg/m²

12.0 - 14.0

Adherence

>13kg/cm² on cement.

Maximum Granulometry

1000 Microns

Cleaning of tools

Use water.

Vida útil

3 - 4 H

DRYING TIME IN 2mm THICKNESS

7 - 8 Hrs.
